

# DOCTEUR FEDERICO CATTÀ

AESTHETIC SURGERY  
AND MEDICINE

## FEES

---

### **\_ INFORMATION**

Dr. Federico Catta is a sector 2 non-OPTAM registered practitioner.

The listed prices are not contractual and cannot be precisely defined due to the specificities of each patient. The duration and complexity of the procedure, as well as the type of anesthesia and hospitalization, can influence the final cost.

Here are the prices for the main medical or surgical procedures, displayed in accordance with legal recommendations.

Prices for cosmetic surgeries without therapeutic purpose include: surgeon and anesthetist fees, clinic fees (hospitalization, operating room, surgical assistant), equipment costs (implants), and postoperative follow-up.

For reimbursed procedures, clinic fees (hospitalization and operating room), equipment costs, potential tests, and postoperative dressings are covered by health insurance. These are not listed here. Displayed prices only include the surgeon and anesthetist's extra fees, which remain your responsibility. These may be fully or partially covered by private insurance — check with your provider using the estimate given during your consultation.

Two consultations are usually required before scheduling a surgical procedure. A legally mandated reflection period of 15 days is required for aesthetic procedures between the first consultation and the surgery.

## \_ CONSULTATION

- FIRST CONSULTATION : 100 €
  - POSTOPERATIVE FOLLOW-UP: FREE
- 

## BREAST

PROCEDURE	COSMETIC	REIMBURSED
